

SUGGESTIONS

FOR PREPARING WILL TO LIVE

DURABLE POWER OF ATTORNEY

(Please read the “Will to Live Form” first. It will help you better understand the suggestions.)

You are not required to fill out any part of this “Will to Live” or any other document such as a living will or durable power of attorney for health care. No one may force you to sign this document or any other of its kind.

The Will to Live form starts from the principle that the presumption should be for life. If you sign it without writing any "SPECIAL CONDITIONS," you are giving directions to your health care provider(s) and health care agent¹ to do their best to preserve your life.

Some people may wish to continue certain types of medical treatment when they are terminally ill and in the final stages of life. Others may not.

If you wish to refuse some specific medical treatment, the Will to Live form provides space to do so ("SPECIAL CONDITIONS"). You may make special conditions for your treatment when your death is imminent, meaning you will live no more than a week even if given all available medical treatment; or when you are incurably terminally ill, meaning you will live no more than three months even if given all available medical treatment. There is also space for you to write down special conditions for circumstances you describe yourself.

The important thing for you to remember if you choose to fill out any part of the "SPECIAL CONDITIONS" sections of the Will to Live is that you must be very specific in listing what treatments you do not want. Some examples of how to be specific will be given shortly, or you may ask your physician what types of treatment might be expected in your specific case.

Why is it important to be specific? Because, given the pro-euthanasia views widespread in society and particularly among many (not all) health care providers, there is great danger that a vague description of what you do not want will be misunderstood or distorted so as to deny you treatment that you do want.

¹ Some states use the terms “attorney in fact,” “surrogate,” “designee,” and “representative” instead of “agent.” They are synonymous in for purposes of these suggestions.

Many in the medical profession as well as in the courts are now so committed to the quality of life ethic that they take as a given that patients with severe disabilities are better off dead and would prefer not to receive either life-saving measures or nutrition and hydration. So pervasive is this "consensus" that it is accurate to say that in practice it is no longer true that the "presumption is for life" but rather for death. In other words, instead of assuming that a now incompetent patient would want to receive treatment and care in the absence of clear evidence to the contrary, the assumption has virtually become that since any "reasonable" person would want to exercise a "right to die," treatment and care should be withheld or withdrawn unless there is evidence to the contrary. The Will to Live is intended to maximize the chance of providing that evidence.

It is important to remember that you are writing a legal document, not holding a conversation, and not writing a moral textbook. The language you or a religious or moral leader might use in discussing what is and is not moral to refuse is, from a legal standpoint, often much too vague. Therefore, it is subject to misunderstanding or deliberate abuse.

The person you appoint as your health care agent may understand general terms in the same way you do. But remember that the person you appoint may die, or become incapacitated, or simply be unavailable when decisions must be made about your health care. If any of these happens, a court might appoint someone else you don't know in that person's place. Also remember that since the agent has to follow the instructions you write in this form, a health care provider could try to persuade a court that the agent isn't really following your wishes. A court could overrule your agent's insistence on treatment in cases in which the court interprets any vague language you put in your "Will to Live" less protectively than you meant it.

So, for example, do not simply say you don't want "extraordinary treatment." Whatever the value of that language in moral discussions, there is so much debate over what it means legally that it could be interpreted very broadly by a doctor or a court. For instance, it might be interpreted to require starving you to death when you have a disability, even if you are in no danger of death if you are fed.

For the same reason, do not use language rejecting treatment which has a phrase like "excessive pain, expense or other excessive burden." Doctors and courts may have a very different definition of what is "excessive" or a "burden" than you do. Do not use language that rejects treatment that "does not offer a reasonable hope of benefit." "Benefit" is a legally vague term. If you had a significant disability, a health care provider or court might think you would want no medical treatment at all, since many doctors and judges unfortunately believe there is no "benefit" to life with a severe disability.

What sort of language is specific enough if you wish to write exclusions? Here are some examples of things you might--or might not--want to list under one or more of the "Special Conditions" described on the form. Remember that any of these will

prevent treatment ONLY under the circumstances--such as when death is imminent--described in the "Special Condition" you list it under. (The examples are not meant to be all inclusive--just samples of the type of thing you might want to write.)

"Cardiopulmonary resuscitation (CPR)." (If you would like CPR in some but not all circumstances when you are terminally ill, you should try to be still more specific: for example, you might write "CPR if cardiopulmonary arrest has been caused by my terminal illness or a complication of it." This would mean that you would still get CPR if, for example, you were the victim of smoke inhalation in a fire.) "Organ transplants." (Again, you could be still more specific, rejecting, for example, just a "heart transplant.")

"Surgery that would not cure me, would not improve either my mental or my physical condition, would not make me more comfortable, and would not help me to have less pain, but would only keep me alive longer."

"A treatment that will itself cause me severe, intractable, and long-lasting pain but will not cure me."

Pain Relief

Under the "General Presumption for Life," of your Will to Live, you will be given medication necessary to control any pain you may have "as long as the medication is not used in order to cause my death." This means that you may be given pain medication that has the secondary, but unintended, effect of shortening your life. If this is not your wish, you may want to write something like one of the following under the third set of "Special Conditions" (the section for conditions you describe yourself):

"I would like medication to relieve my pain but only to the extent the medication would not seriously threaten to shorten my life." OR

"I would like medication to relieve my pain but only to the extent it is known, to a reasonable medical certainty, that it will not shorten my life."

Think carefully about any special conditions you decide to write in your "Will to Live." You may want to show them to your intended agent and a couple of other people to see if they find them clear and if they mean the same thing to them as they mean to you. Remember that how carefully you write may literally be a matter of life or death--your own.

After writing down your special conditions, if any, you should mark out the rest of the blank lines left on the form for them (just as you do after writing out the amount on a check) to prevent any danger that somebody other than you could write in something else.

It is wise to review your Will to Live periodically to ensure that it still

gives the directions you want followed.

How to Use the New York Will to Live Form — Suggestions and Requirements:

1. Any person who is 18 years of age or older, or is the parent of a child, or has married may name a health care agent through this declaration. This declaration must be dated and be signed by you or by another person who will have signed it in your presence and under your direction.
2. It is the assumed responsibility of your agent to act in accordance with your wishes, including your religious and moral beliefs, and to act in your best interest. Your agent must be an adult 18 years of age, or a parent of a child, or married. Ordinarily, you cannot choose someone who is already a health care agent for ten other people. But you can always choose a close relative to be your agent. Close relatives include your spouse, parents, children, brothers, sisters, and grandparents. Also, the spouses of any of these people are included. Your doctor may not serve both as your agent and your doctor at the same time. If you desire to have a doctor as your agent, he or she must not be involved in treating you medically. If you wish for an employee, administrator, or operator of the hospital or nursing home that you are in to be your agent, please check with the administration of that facility regarding restrictions that may apply. It is helpful to appoint substitute health care agents, in the event that your first agent is unable to serve. There is a space on the form for you to name a substitute agent.
3. The signing must be done in the presence of two or more witnesses (age 18 or older). The witnesses must state that you have signed this declaration willingly and free from duress. They do so by signing the statement provided for them at the end of the document. The person you name as your agent may not serve as a witness. NOTE: If you are a resident of a mental hygiene facility (a facility operated or licensed by the Office of Mental Health or the Office of Mental Retardation) be sure to check with an administrator at that facility before filling out this document. There are certain restrictions on naming an employee of such a facility for either the role of a witness or the role of agent.
4. Your agent's authority takes effect only when you no longer have the capacity to make health care decisions.
5. A properly signed and witnessed declaration will remain in effect until you revoke it. The revocation may be made orally, in writing, or in any other way in which you signify your desire to revoke. If you appoint your spouse as your agent, this document will be automatically revoked by a divorce or legal separation.
6. You should tell your doctor about this document. You should also ask your doctor to keep a copy of this document as a part of your medical health record. Give copies of the signed original to your health care agent, family members, and anyone else you think appropriate. Keep the original document in a safe place that will be easily accessible to others in case of an emergency and tell someone where it is.
7. This type of declaration has been authorized by the New York Health Care Proxy

Act, N.Y. Pub. Health Law §§ 2980 to 2994. You have the right to make a declaration stating your desires on the use of health care procedures after you are incapacitated.

8. You should periodically review your document to be sure it complies with your wishes. Before making any changes, be aware that it is possible that the statutes controlling this document have changed since this form was prepared. Contact the Will to Live Project by visiting <http://www.nysrighttolife.org/> (click on “[Will to Live Project](#)”) or an attorney to determine if this form can still be used.
9. If you have any questions regarding the information in this document, please consult with an attorney.

Form prepared 2005

NEW YORK HEALTH CARE PROXY
WILL TO LIVE FORM

I, _____ hereby appoint
(Name of Principal)

(Name of Agent)

(Home address and telephone number of agent)

as my health care agent to make any and all health care decisions for me, except to the extent I state otherwise. This health care proxy shall take effect in the event I become unable to make my own health care decisions.

GENERAL PRESUMPTION FOR LIFE

I direct my health care provider(s) and health care agent to make health care decisions consistent with my general desire for the use of medical treatment that would preserve my life, as well as for the use of medical treatment that can cure, improve, or reduce or prevent deterioration in, any physical or mental condition.

Food and water are not medical treatment, but basic necessities. I direct my health care provider(s) and health care agent to provide me with food and fluids orally, intravenously, by tube, or by other means to the full extent necessary both to preserve my life and to assure me the optimal health possible.

I direct that medication to alleviate my pain be provided, as long as the medication is not used in order to cause my death.

I direct that the following be provided:

- the administration of medication;
- cardiopulmonary resuscitation (CPR); and
- the performance of all other medical procedures, techniques, and technologies, including surgery,

— all to the full extent necessary to correct, reverse, or alleviate life-threatening or health-impairing conditions, or complications arising from those conditions.

I also direct that I be provided basic nursing care and procedures to provide comfort care.

I reject, however, any treatments that use an unborn or newborn child, or any tissue or organ of an unborn or newborn child, who has been subject to an induced abortion. This rejection does not apply to the use of tissues or organs obtained in the course of the removal of an ectopic pregnancy.

I also reject any treatments that use an organ or tissue of another person obtained in a manner that causes, contributes to, or hastens that person's death.

The instructions in this document are intended to be followed even if suicide is alleged to be attempted at some point after it is signed.

I request and direct that medical treatment and care be provided to me to preserve my life without discrimination based on my age or physical or mental disability or the "quality" of my life. I reject any action or omission that is intended to cause or hasten my death.

I direct my health care provider(s) and health care agent to follow the above policy, even if I am judged to be incompetent.

During the time I am incompetent, my agent, as named above or below, is authorized to make medical decisions on my behalf, consistent with the above policy, after consultation with my health care provider(s), utilizing the most current diagnoses and/or prognosis of my medical condition, in the following situations with the written special conditions.

WHEN MY DEATH IS IMMINENT

- A. If I have an incurable terminal illness or injury, and I will die imminently — meaning that a reasonably prudent physician, knowledgeable about the case and the treatment possibilities with respect to the medical conditions involved, would judge that I will live only a week or less even if lifesaving treatment or care is provided to me — the following may be withheld or withdrawn:

(Be as specific as possible; SEE SUGGESTIONS.): _____

(Cross off any remaining blank lines)

WHEN I AM TERMINALLY ILL

- B. Final Stage of Terminal Condition. If I have an incurable terminal illness or injury and even though death is not imminent I am in the final stage of that terminal condition — meaning that a reasonably prudent physician, knowledgeable about the case and the treatment possibilities with respect to the medical conditions involved,

would judge that I will live only three months or less, even if lifesaving treatment or care is provided to me — the following may be withheld or withdrawn:

(Be as specific as possible; SEE SUGGESTIONS.): _____

(Cross off any remaining blank lines)

C. OTHER SPECIAL CONDITIONS:

(Be as specific as possible; SEE SUGGESTIONS.): _____

(Cross off any remaining blank lines)

IF I AM PREGNANT

D. Special Instructions for Pregnancy. If I am pregnant, I direct my health care provider(s) and health care agent to use all lifesaving procedures for myself with none of the above special conditions applying if there is a chance that prolonging my life might allow my child to be born alive. I also direct that lifesaving procedures be used even if I am legally determined to be brain dead if there is a chance that doing so might allow my child to be born alive. Except as I specify by writing my signature in the box below, no one is authorized to consent to any procedure for me that would result in the death of my unborn child.

If I am pregnant, and I am not in the final stage of a terminal condition as defined above, medical procedures required to prevent my death are authorized even if they may result in the death of my unborn child provided every possible effort is made to preserve both my life and the life of my unborn child.

Signature

I direct my agent to make health care decisions in accordance with my wishes and instructions as stated above. I also direct my agent to abide by any limitations on

his or her authority as stated above.

In the event the person I appoint above is unable, unwilling or unavailable to act as my health care agent, I hereby appoint:

(Name of alternate agent)

(Home address and telephone number of alternate agent)

as my health care agent.

Signature _____ Address _____

Date _____

I declare that the person who signed or asked another to sign this document is personally known to me and appears to be of sound mind and acting willingly and free from duress. He or she signed (or asked another to sign for him or her) this document in my presence and that person signed in my presence. I am not the person appointed as agent by this document.
