

PETITION TO STOP "RHA"- NEW YORK'S ABORTION FOREVER FOR ANYTHING BILL

The sponsors and allies of the RHA bill take exception to any laws addressing the protection of unborn children and their mothers—such as parental notification, informed consent, and the ban on partial-birth abortion. Such laws are supported by a majority of the citizens of New York and have been upheld as constitutional by the US Supreme Court. RHA is written to ensure that the radical abortion industry in New York can continue to thrive without reservation or regulation of its out-of-control practice in New York City and New York State.

We strongly oppose the so-called "Reproductive Health (and Privacy Protection) Act" and ask you to do the same.
